A. O. Smith Offers One-Stop Shopping for Refrigeration Motors

Tipp City, Ohio – A. O. Smith Electrical Product Company offers one of the largest selections of refrigeration motors in the industry – 200-plus models to choose from with a motor for virtually every application: Green Choice™, C-frame, ECM unit bearing, 3.3” diameter, VFD condenser fan and over one hundred direct OEM replacement motors. The new A. O. Smith Refrigeration Catalog, bulletin number 6600, offers customers the convenience of one-stop shopping.

Unit Bearing

The catalog lists a complete line of high quality unit bearing motors from two watt through 75-watt; aluminum, cast iron, single-foot or two-foot mounting. A. O. Smith also offers a complete line of direct OEM replacement motors, which are manufactured in the United States by Electric Motors and Specialties.

iMotor™ is a new unit bearing, electronically commutated motor (ECM), designed as a direct drop-in replacement for supermarket case evaporator fans, replacing hundreds of OEM shaded pole evaporator fan motors - available in both nine and 16-watt designs.

OEM Direct Replacements

Over one hundred direct OEM replacement motors from Bally, Copeland, HeatCraft and Tecumseh are listed in bulletin number 6600. Direct replacement motors drop right into the application with no modifications.

Green Choice™

A. O. Smith's Green Choice brand of motors is designed to address today's environmental concerns. A Green Choice motor saves energy by reducing the amount of electricity needed, indirectly reducing the amount of carbon dioxide emitted into the air.

Join the national trend in the sale of energy efficient products. Many of the nation's retailers have made the decision to reduce energy consumption and their carbon footprint by retrofitting their refrigeration equipment with energy efficient electric motors.

The new A. O. Smith Refrigeration Catalog, bulletin number 6600, offers the convenience of one-stop shopping with over two hundred refrigeration motors, in which to choose. To learn more about the comprehensive line of refrigeration motors from 56-frame inverter duty condenser fan motors through C-frame direct replacement motors, visit www.aosmithmotors.com to download bulletin # 6600, "Refrigeration Motors".

A. O. Smith Electrical Product Company based in Tipp City, Ohio, manufactures a comprehensive line of fractional horsepower A/C and D/C, hermetic, and integral horsepower electric motors used in a wide array of consumer, commercial, and industrial products.
